Nursing Workshop Program

General Information

Program Overview

The POEM third Nursing Workshop offers pediatric hematology and oncology topics in a way that allows for educational capacity building at local institutions across the region.

Learning Outcomes

By the end of this activity, participants will be able to:

- Show enhanced knowledge in principles of chemotherapy, side effects management, pain, Palliative care & COVID-19 implications from nursing perspective by passing a post-test with a minimum score of 70%.
- Demonstrate proper nursing skills in Implantable Venous Access Devices (IVAD) care and management, chemotherapy waste and management and extravasation nursing management by succeeding 80% of the competencies addressed in the practice-based scenarios.
- Report an increased knowledge acquisition of research in nursing, quality improvement, and Magnet by completing an online survey that confirms knowledge gain using a 4-point Likert scale.

Teaching Methodology

- PowerPoint Presentations
- Case Discussions
- Practice-based learning
- Panel Discussion

Target Audience

The program targets professional nurses at all levels from POEM participating countries who are involved with the care of pediatric oncology patients.

Language

English language will be used at all times.

Date and Venue

March 03-04, 2023

Venue: Al-Bustan Palace

Muscat, Oman
